

WHY

THROTTLE BODIES?

➤ We were the FIRST to offer after market throttle bodies for the V-Twin industry.

➤ We manufacture all of our products in house; in the United States on state-of-the-art CNC machines.

➤ Our throttle bodies have double roller bearing for the smoothest throttle feel.

➤ 2001-2010 bikes, we have a throttle body available for you.

➤ We offer the most choices in size and port configurations.

➤ We have the highest quality in the industry.

➤ Our throttle bodies are cruise control compatible.

➤ We offer a full port and polish.

THAT'S WHY.
